

**REMARKS**

Except as noted below, the claims are presented herein so as to correspond with the way they were presented in the applicants' earlier response of September 19, 2007.

Regarding the requirement for election of species, applicants elect the species of Figure 11, i.e. JA31 (rK). See, for example, Example of General Method, beginning at page 15, line 10 of applicants' specification and Table 1.

Claims 1-9, 12-15, 17-21, 29, 30, 32 and 33 are readable on the elected species. Claim 14 is directed to the elected species.

In reviewing the claims, it was noted that references to Formula II were inadvertently retained in claims 17 and 32. These references have been deleted in the foregoing claim changes.

It is believed that the applicants are now fully responsive.

Favorable action is requested.

Respectfully submitted,  
MORGAN LEWIS & BOCKIUS LLP
